

2015 HAS BEEN A YEAR OF GLOBAL HUMANITARIAN CRISIS.

Catastrophic damage was left in the wake of the 7.8 magnitude earthquake that struck Nepal on 25 April and thousands of refugees have been crossing borders every day as the war in Syria escalates and circumstances in the region deteriorate.

All of these people need one thing: **HOPE.**

Habitat for Humanity Great Britain has been honoured to serve in these crises. Our programmes are made possible thanks to our generous supporters, whether they are individuals, institutions or corporate organisations. Together, our impact across the world, in the lives of those who have so little, is growing. We cannot thank you enough.

Against a harsh charity sector climate, Habitat for Humanity Great Britain remains committed to raising funds to support those around the world who are in need of somewhere safe and decent to call home. We hope that as you read through this Review you will recognise the great impact that we have been able to achieve this past year with the support of our partners. We are now looking ahead to 2016, building on the foundations that were laid this year to enable us to help more people around the world lift themselves out of poverty forever.

Stewart Baseley Chairman

REFUGEE CRISIS ▶

Habitat for Humanity has united across the region to support refugees from the Middle East to Europe. This Registration Shelter in the Gevgelija transit centre on the Greece-Macedonia border allows migrants to fill in forms and rest with a roof above their heads. An estimated 460,000 people will benefit from this Registration Shelter alone.

◀ BRAZIL AND BOLIVIA: ADVOCACY

Habitat for Humanity advocacy projects in Brazil and Bolivia have resulted in changes to legal regulations at state and national level, giving millions of people the right to own their own land.

NEW CEO: MERYL DAVIES ▶

Meryl took up the role of HFHGB CEO on 4 November 2015. Meryl spent several years in the INGO sector, first as Director of Fundraising at SOS Children's Villages UK and more recently as National Director at Right To Play UK.

She brings great experience, vision and passion and is determined to ensure that our work continues to make a sustainable and tangible global impact.

◀ ETHIOPIA: SLUM UPGRADE

A private donor family joined HFHGB and HFH Northern Ireland to fund a slum upgrade in Ethiopia's capital city, Addis Ababa. This project will improve housing quality, hygiene and sanitation for over 100 families and provide a model for urban transformation throughout Ethiopia.

BACK OFFICE UPDATE ▶

It may not sound as life-changing as our international programmes, but making sure we are diligent with the data we have is extremely important to us. Our new website and reconfigured database enable us to steward our funds faithfully and make sure we adhere to strict charity guidelines about how we communicate with our supporters.

time to build

Home is the cornerstone of hope for those living in poverty.

Habitat for Humanity help the poorest and most vulnerable people lift themselves out of poverty by supporting them to build their homes and communities.

HABITAT AT HOME: ▶ EMPTY HOMES PROJECTS

Two empty homes refurbishment schemes have been completed this year, providing affordable accommodation for 8 people in London. One property is providing accommodation for a vulnerable woman and her family, in partnership with Housing for Women.
